2. ANTI-MONEY LAUNDERING PROVISIONS

The Financial Intelligence and Anti-Money Laundering Act 2002 provides for the offences of money laundering, the reporting of suspicious transactions and the measures to combat money laundering. A money laundering offence is committed when a person engages in a transaction that involves property which is or represents the proceeds of any crime or receives, is in possession of, conceals, disguises, transfers, converts, disposes of, removes from or brings into Mauritius any property which is or represents the proceeds of any crime. The Act also lays down the obligation on "every bank, financial institution, cash dealer or member of a relevant profession or occupation" to report forthwith to the Financial Intelligence Unit (FIU) any "suspicious transaction". To satisfy the requirements under this Act, the Company may require additional evidence of identification from a prospective investor prior to issuing units. Besides existing legislation, the Cells will also adhere to the requirements of the relevant codes, guidelines and handbooks on Prevention of Money Laundering issued by the FSC.

6. INVESTMENT OBJECTIVE OF THE CELL

The objective of the Fund is to maximise current income to the extent consistent with preservation of capital by investing in a diversified portfolio of securities such as:

- 1) Debts such as sovereign debts, corporate debts, credit notes, capital protected notes, structured notes, debentures, bonds, and any investment related to debts.
- 2) Exchange Traded Funds securities having bonds as underlyings.
- 3) Money market
- 5) Hybrid investment instruments such as convertible debenture, convertible bonds and any other hybrid investment instruments. And
- 6) Fixed Term Deposits.

The Cell may also invest in other similar money market funds government securities and other short term instruments which the investment adviser believes to be of appropriate quality and which are consistent with the investment objectives of the fund.

The fund uses the Bloomberg Aggregate Total Return Index benchmark but the aim is not to follow it lavishly.

It is intended to invest a majority of the assets in USD denominated investment grade securities. However, the investments of the Fund are subject to market fluctuations and other risks normally associated with any investments and there can be no assurance that the Fund's investment objectives will be achieved. It should be appreciated that in certain market conditions the value of Shares and the income from them (if any) may fall and that Class of Shares or Series may have a separate risk profile.

7. DIVIDENDS

An annual dividend is payable subject to a solvency test.

8. GENERAL RISK FACTORS

Any investment carries a level of risk that generally reflects its potential for reward. Neither the CIS Manager, Fund Administrator, the Principal Distributor, nor any other functionary guarantees the performance of the Funds, the attainment of the stated objectives, or the repayment of capital.

- Investors are not certain to make a profit and in certain circumstances they may even lose money. Any income is not fixed. The value of investments and any income derived from them can go up as well as down.
- Losses may be made due to adverse movements in equity, bond, currency and other market prices and to changes in the volatility of any of these. The key factors driving changes in these market prices are economic growth and inflation, both of which themselves depend to a greater or lesser extent on official economic and interest rate policy.
